## About Us :

"Welcome to Analitico Instruments, your premier supplier for a wide range of superior analytical products and services. Our area of expertise is offering a wide selection of analytical instruments and lab equipment, pharmaceutical equipment, CRM standards, lab chemicals, and precision glassware. You can rely on Analitico Instruments for unmatched quality and dependability in all facets of your business."

.....

## Thermo Fisher Scientific

Thermo Fisher Scientific offers a comprehensive portfolio of advanced analytical instruments designed to deliver precision, reliability, and high-performance results for laboratories across pharmaceuticals, environmental testing, food safety, research, petrochemicals, academia, and industrial applications.

### **Chromatography Systems**

- Gas Chromatography (GC)
- Gas Chromatography–Mass Spectrometry (GC-MS)
- Triple Quadrupole GC-MS/MS
- High-Performance Liquid Chromatography (HPLC)
- Liquid Chromatography–Mass Spectrometry (LC-MS)
- Triple Quadrupole LC-MS/MS

These systems provide accurate qualitative and quantitative analysis with superior sensitivity, reproducibility, and compliance-ready workflows.

### **Spectroscopy & Elemental Analysis Instruments**

- Atomic Absorption Spectroscopy (AAS)
- Inductively Coupled Plasma Optical Emission Spectrometry (ICP-OES)
- Inductively Coupled Plasma Mass Spectrometry (ICP-MS)
- Fourier Transform Infrared Spectroscopy (FTIR)
- UV-Visible Spectrophotometers
- NanoDrop Spectrophotometers

Designed for trace-level detection, material characterization, molecular analysis, and elemental determination, these instruments ensure robust performance and regulatory compliance.

### **Why Choose Thermo Fisher Scientific?**

- Industry-leading technology and innovation
- High sensitivity and precision
- User-friendly software platforms
- Regulatory compliance support (FDA, GLP, GMP)
- Strong global service and technical support network

Thermo Fisher Scientific stands as a trusted partner for laboratories seeking cutting-edge analytical solutions and long-term operational excellence.

## Anton Paar - Precision Measurement & Analytical Solutions

Anton Paar is a globally recognized leader in high-precision laboratory and process instrumentation, delivering innovative solutions for research, quality control, and industrial applications. With a strong focus on accuracy, reliability, and advanced technology, Anton Paar instruments are widely used in pharmaceuticals, petrochemicals, chemicals, food & beverage, polymers, academia, and materials research.

### **Density & Concentration Measurement**

- Digital Density Meters
- Concentration & Alcohol Meters
- Inline Process Density Systems

### **Rheology & Viscometry**

- Modular Rheometers
- Rotational & Rolling-Ball Viscometers
- High-Temperature & High-Pressure Rheology Systems

### **Particle Characterization**

- Particle Size Analyzers
- Zeta Potential Analyzers

### **Material Characterization**

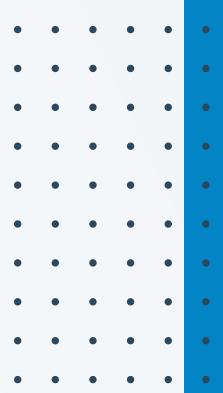

- X-ray Diffraction (XRD) Systems
- X-ray Fluorescence (XRF) Spectrometers
- Surface Area & Pore Size Analyzers

## Labindia Instruments Pvt. Ltd. - Analytical & Laboratory Solutions

Labindia Instruments Pvt. Ltd. is a leading Indian manufacturer and supplier of analytical and laboratory instruments, providing high-quality solutions for pharmaceutical, chemical, food, environmental, research, academic, and industrial laboratories. With a strong presence across India and international markets, Labindia is known for reliable instrumentation, regulatory compliance, and customer-focused service support.

### **Pharmaceutical Testing Instruments**

- Dissolution Test Apparatus
- Disintegration Test Apparatus
- Friability Testers
- Tablet Hardness Testers
- UV-Visible Spectrophotometers

## LIMS (Cybit) – Digital & Laboratory Software Solutions

A LIMS (Laboratory Information Management System) is a software platform that manages samples, laboratory workflows, test results, reporting, and quality control processes in a centralized and secure environment. It helps laboratories operate efficiently while maintaining full traceability and compliance with industry standards.

### **What Cybit Does**

Cybit focuses on developing software and technology solutions that digitize critical workflows in research, quality control, safety, and operations. Its offerings are designed to reduce manual work, improve compliance, and enable data-driven decision-making.

#### **Sampleify LIMS**

A robust Laboratory Information Management System (LIMS) that centralizes sample tracking, automates reporting, and streamlines lab workflows. It supports regulatory compliance, data integrity, and real-time analytics for pharmaceutical, environmental, food, and industrial laboratories.

#### **Athena ELN & R&D Suite**

An Electronic Laboratory Notebook (ELN) and R&D management platform that structures experimental data, captures results digitally, and enhances collaboration in research teams from ideation to validation.

#### **Instrument Automation & IoT Integration**

Custom automation solutions that retrofit legacy lab instruments and equipment with sensors and connectivity, enabling automated data capture, monitoring, and control.

#### **Occusafe – Safety & Compliance Software**

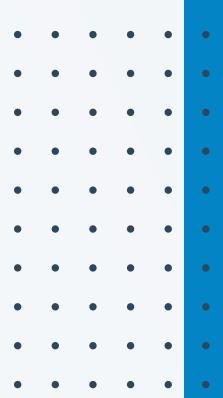

A digital platform for managing workplace safety, incident reporting, audits, risk assessments, and compliance workflows.

#### **DocuFlows – Document Management System**

A secure DMS that organizes documents with version control, workflow integration, and audit trails to support compliance and collaboration.

### **Key Capabilities**

- Digitization of Laboratory Workflows
- Custom Software Development
- Data Integration & Connectivity
- Compliance & Traceability

## Peak Scientific

High-performance Nitrogen gas generator and Hydrogen gas generator, Zero Air, TOC. Industrial Nitrogen Plant ,Air Dryers etc.

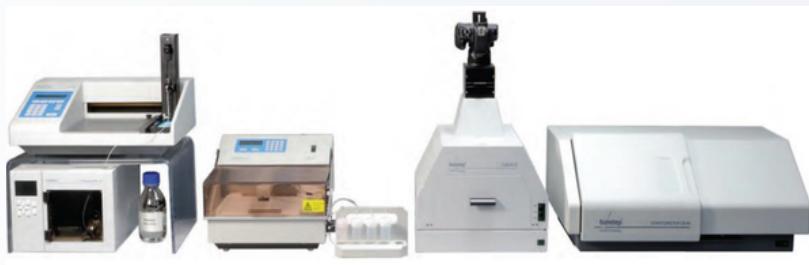

## Bruker

The company specializes in advanced systems for mass spectrometry, FT-IR, Raman, NMR, XRD, and XRF, serving pharmaceutical, chemical, biotechnology, environmental, food, and research laboratories worldwide.

## Biostep

DESAGA HPTLC System with Sample Applicator, Model AS 30 and Densitometer-cum-Scanner Model CD 60 with HPTLC Chromatography Software.

## Spectrolab - UK

XRF For all applications.

TraceTech is like no other XRF and is the perfect analyser for minerals cement and petrochem. The instrument employes a unique optical system based on diffracted focussed wavelength dispersive X-rays that allow the widest possible range of applications including general lab use, minerals and ores, metals and liquids, petrochem products, refineries, marine, aerospace and the environment.

TraceTech 4000 MWDXRF Analyzer for all Elements F, Na, Mg, Al, Si, P, S, Cl, K, Ca, Ti, and Fe Other elements can also be added

## Agrosta - France

### **Belle 2 texture analyzer**

Food, pharmacy, meat, fruits and vegetables, resins, glue, semi-solids, gels and gelatin, bread and bakery, dough, packages, foams - According to Bloom, Warner Bratzler shear force, AOCS and many more.

## Laboratory Equipments

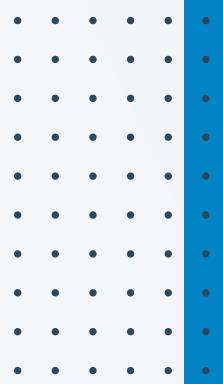

- pH Meter - Digital / Microprocessor
- Microwave Digestion / Extraction System
- Auto / KF Titrator
- Bomb Calorimeter
- Polarimeter - Digital
- Refractometer
- Rotary Evaporators
- Shaker - Rotary / Orbital / Sieve
- Soxhlet Extraction Unit
- Solvent Filtration Kit
- Shaking Water Bath
- Turbidity / Nephelometer
- Tablet Dissolution Apparatus
- Tablet Disintegration Apparatus
- Tablet Friability Test Apparatus
- XRF Spectrometer / X-ray Diffraction

- Tapped / Bulk Density Apparatus
- TDS Meter
- Tray Dryer
- Water Purification System
- Ultrasonic Cleaner / Sonicator
- UV Cabinet
- Vacuum Oven
- Vacuum Pump
- Viscometers
- Bath - Viscosity / Water
- Vortex Mixer / Cylco Mixer
- Water Distillation Unit
- Walk-in-Climatic Chamber
- Weighing Balances
- SEM/TEM Microscope
- Particle Size Analyzer

## Pharmacy Equipments

- Tablet punching machine
- Capsule filling machine
- Tablet filling machine
- Tablet Coating Pan
- Centrifuge

- Homogenizer
- Flame Photometer
- Melting Point Apparatus
- Colorimeter
- DSC/TGA

## Accessories

- Gas Purification Control Panel for GC/GCMS/AAS/ICP
- Capillary Columns
- HPLC Columns
- Vial, Cap, Septa
- Hollow Cathode Lamps
- Deuterium Lamp
- CRM / Analytical Standards
- Chemicals / Reagent
- Syringes

### WE ALSO DEAL IN REFURBISHED GC & HPLC SYSTEMS

Gas Purification panel  
For : GC, GC-MSMS,  
LC-MSMS, AAS, ICP,  
ICP-MS and  
Laboratory tubing.

## AUTHORISED DISTRIBUTOR / DEALER

### Industries Served:

- Pharmaceuticals and Biotechnology
- Environmental and Water Testing
- Food and Beverage
- Chemicals and Petrochemicals
- Academia and Research Institutions
- Material Science

### Our Mission :

Our mission is to be the one-stop solution for every analytical instrumentation need.

We strive to provide the most reliable, user-friendly, and cost-effective instruments available — sourced from the best in the industry. With a strong commitment to customer satisfaction, we ensure that every client is equipped with not just what they need, but the best solutions possible to elevate their work and outcomes.

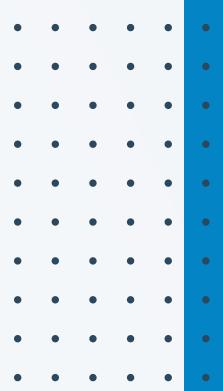

### Vision :

At Analitico Instruments, our clients are at the heart of everything we do.

We are committed to understanding their challenges, delivering innovative solutions, and leveraging cutting-edge technology to exceed expectations. Our vision is to continually bring together the best resources, creativity, and cost-effective strategies — ensuring measurable value, long-term trust, and scientific advancement.

Our goal is simple: To ensure every customer receives the best in quality, care, and service — every time.

We proudly collaborate with trusted, top-tier manufacturers to offer a wide range of equipment that matches precision, performance, and affordability. Whether you're sourcing a single instrument or setting up an entire laboratory, we deliver solutions you can rely on.
